includes *(5 units each)*:
Syringe Barrel Ref. 0029409
Seal Ref. 0029414
Cap Ref. 0029407

Manual ..... 1 unit
Ref. 0027371

Operation

The SB05CC is designed to be used with JBC´s Manual Solder Paste Dispenser DPM*, with JBC's Needles ND-KS* and Tappered Tips ND-KP* .
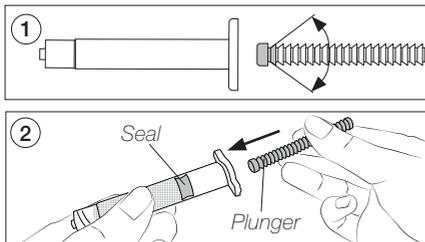

1. Barrel Filling

Fill in the syringe barrel with solder paste.

1. Seal Placement

Take the barrel filled with solder paste and place the seal into the barrel.
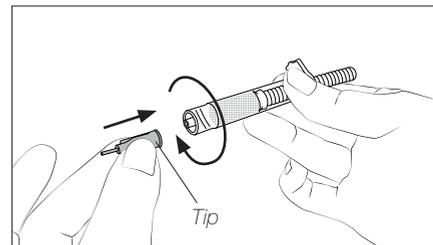

2. Plunger Placement

1. Pay attention to the fact that the plunger enters with its cylindrical part in the syringe barrel and the direcction of the teeth angle corresponds to the upper image. Otherwise, the DPM will not work properly.

2. Insert the plunger into the seal and press the seal against the solder paste to eliminate the air inside the barrel.

3. Tip Placement

Thread the tip* onto the syringe barrel.
