## CONTENTS

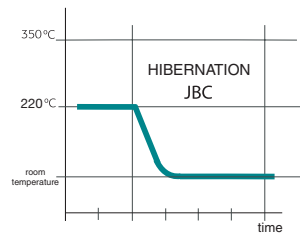

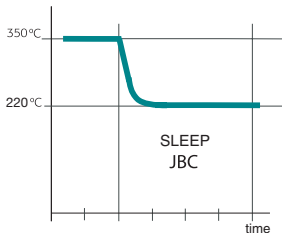

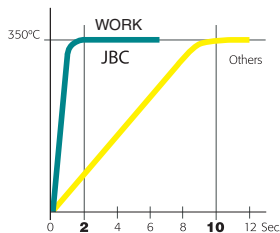

## HEAT MANAGEMENT

JBC stations intelligently manage the tool temperature:

**Work mode:** When the tool is used, pre-set work temperature is 350° C.

**Sleep mode:** When the tool is in the stand, the temperature goes down to 220° C.

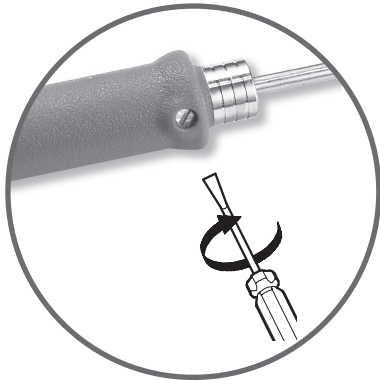

**Hibernation mode:** After longer periods of inactivity (pre-set i.e 30 minutes), the power is cut off and the tool cools down to room temperature.

*The advantage of this heat management is lifespan increase which ensure low cost of ownership.*
