# ADB STAND

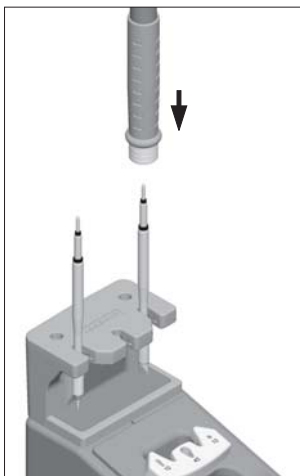

### Changing the handpiece's cartridge

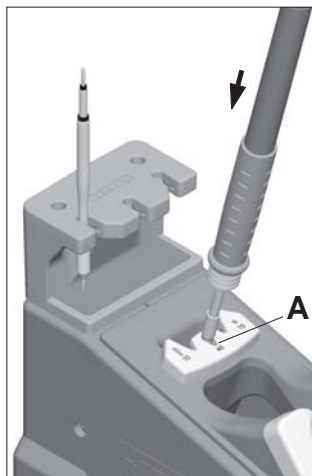

With the JBC system, the cartridge can be changed quickly, without turning off the station, so you have two soldering irons in one. Here is what to do to change the cartridge:

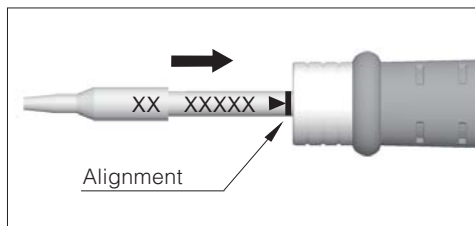

**1** - Place the handpiece and remove the cartridge.

**2** - Place the handpiece on top of the new cartridge, press it slightly down and remove the handpiece.

**3** - Press the cartridge into the opening A.

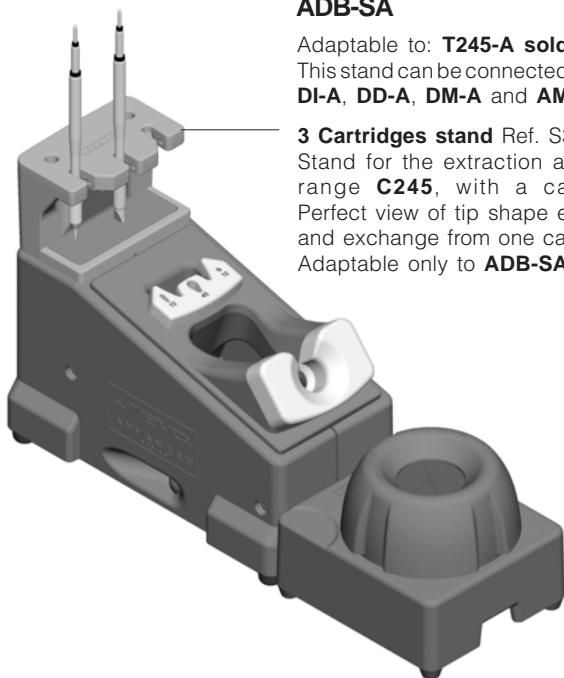

### Important.

It is essential to insert the cartridge till the end for a good connection. Take the mark ► as reference.

## ADB-SA

Adaptable to: **T245-A soldering handpiece.**

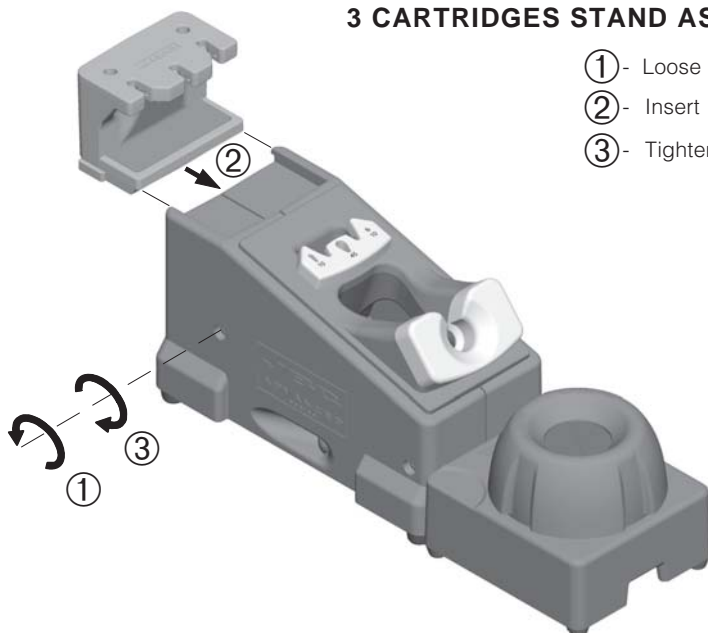

This stand can be connected to the following JBC stations:  
**DI-A, DD-A, DM-A and AM-A.**

### 3 Cartridges stand Ref. S3-A

Stand for the extraction and placement of cartridge range **C245**, with a capacity of 3 cartridges. Perfect view of tip shape enables you to easily select and exchange from one cartridge model to another. Adaptable only to **ADB-SA** stand.

## 3 CARTRIDGES STAND ASSEMBLY

① - Loose the screw

② - Insert the stand

③ - Tighten the screw
