電子市場のプロフェッショナルのための最適なお選択

より低い温度とスリーブ&休止モードを使用することで、こて先寿命はグラフのように伸びます。

C115 section containing various soldering tip models like C115126, C115101, C115103, C115106, C115107, C115124, C115118, C115105, C115110, C115116, C115117, C115108, C115125, C115113, C115114, C115115, C115111, C115112, C115120, C115109, C115127, C115128, C115213, C115214, C115221, C115222, C115223, C115211, C115212.

C120 and C210 sections containing models like C120002, C120902, C120006, C120004, C120012, C120011, C120001, C120003, C120005, C120007, C120008, C120009, C120010, C210020, C210009, C210016, C210012, C210013, C210003, C210005, C210002, C210010, C210014, C210004, C210006, C210027, C210031, C210028, C210029, C210030, C210019, C210023, C210021.

C245 section containing models like C245731, C245773, C245742, C245774, C245906, C245406, C245768, C245944, C245907, C245407, C245759, C245770, C245741, C245729, C245061, C245911, C245775, C245755, C245756, C245908, C245708, C245967, C245069, C245966, C245030, C245032, C245036, C245930, C245001, C245937, C245957, C245903, C245403, C245943, C245107.

C250 and C255 sections containing models like C210018, C210033, C210038, C210012, C210015, C210017, C250420, C250401, C250402, C250403, C250409, C250410, C250404, C250405, C250406, C250412, C250418, C250407, C250408, C250411, C250413, C250414, C250415.

C000000 高熱容量カートリッジ : こて先を最も適正な形状にすることにより、熱容量を最大40%upしています。 C000000\* 標準のこて先より20mm長く、標準のこて先では届きづらい部分のはんだ付けに適しています。
