INSTRUCTION MANUAL

AMS

Stand for

PA120 & AM120 Micro Tweezers

This manual corresponds to the following reference:

AM-SB

Packing List

The following items are included:

Stand for AM120 & PA120 Micro Tweezers 1 unit

Sponge for Modular Tool Stands 1 unit
Ref. S7034

Stand Cable 1m 1 unit
Ref. 0024227

Brass Wool 1 unit
Ref. CL6210

Manual 1 unit
Ref. 0027180

Features and Connections

Assembly

Adjustable Cable Collector and Adjustable Tool Holder

Insert the cable into the cable collector clip. Do not leave the cable longer than necessary to reach the work area freely.

The cable collector is flexible. It accompanies and adapts to the movements during the soldering process.

Adjust the tool holder angle to suit the work position.

The wiper offers different ways to clean the cartridge tips. If desired use the included sponge.

Changing Cartridges - AM120 Tweezers

1. Removing

Place the cartridges in the extractor and pull the tweezers to remove them.

2. Positioning

Place the tweezers on top of the new cartridge and slightly press down.

3. Inserting

Use the grooves to insert the cartridges as far as the mark*.

***Important**

It is essential to insert the cartridges as far as the mark for a proper connection.

4. Rotational Cartridge Alignment

Slightly turn the wheels to align the cartridges as required.

5. Vertical Cartridge Alignment

Close the tweezers and the rear wheel allows the cartridges to be equally aligned in a vertical direction.

Changing Cartridges - PA120 Tweezers

1. Unlocking

Unlock the fixing screws.

2. Removing

Place the cartridges in the extractor and pull the tweezers to remove them.

3. Inserting

Use the grooves to insert the cartridges as far as the mark*.

4. Locking

Lock the fixing screws.

***Important**

It is essential to insert the cartridges as far as the mark for a proper connection.

Wiper

The integrated wiper offers different ways to clean the cartridge tips.

Tapping

Tap gently to remove excess solder.

Wiping

Use the slots to remove the remaining particles.

Sponge

The softest cleaning method. Keep the sponge damp with distilled water when working to avoid tip wear.

Wiper and Brass Wool Replacement

The wiper and brass wool can easily be removed for cleaning or replacement when they are worn.

Lift the wiper at its front edge.

Remove the wiper by pulling it out.

Replace the brass wool with a new one when it is worn out. Place the wiper back or replace them if desired.

Accessories

Maintenance

Before carrying out maintenance or storage, always unplug the stand from the station and the tool.

- Use a damp cloth to clean the stand. Alcohol can be used only when cleaning metal parts.
- Check periodically that the metal parts of the tool/stand are clean so that the station can check the tool's status.
- Periodically check all cables and tube connections.
- Replace any defective or damaged parts. Use original JBC spare parts only.
- Repairs should only be performed by a JBC authorized technical service.

Safety

It is imperative to follow safety guidelines to prevent electric shock, injury, fire or explosion.

- Do not use the units for any purpose other than soldering or rework. Incorrect use may cause a fire.
- The power cord must be plugged into approved bases. Be sure that it is properly grounded before use. When unplugging it, hold the plug, not the wire.
- Do not work on electrically live parts.
- The tool should be placed in the stand when not in use in order to activate the sleep mode. The soldering tip or nozzle, the metal part of the tool and the stand may still be hot even when the station is turned off. Handle with care, including when adjusting the stand position.
- Do not leave the appliance unattended when it is on.
- Do not cover the ventilation grills. Heat can cause inflammable products to ignite.
- Avoid flux coming into contact with skin or eyes to prevent irritation.
- Be careful with the fumes produced when soldering.
- Keep your workplace clean and tidy. Wear appropriate protection glasses and gloves when working to avoid personal harm.
- Utmost care must be taken with liquid tin waste which can cause burns.
- This appliance can be used by children over the age of eight and also people with reduced physical, sensory or mental capabilities or lack of experience provided that they have been given adequate supervision or instruction concerning the use of the appliance and understand the hazards involved. Children must not play with the appliance.
- Maintenance must not be carried out by children unless supervised.
