

## IR Preheater Support

### PHS-SA

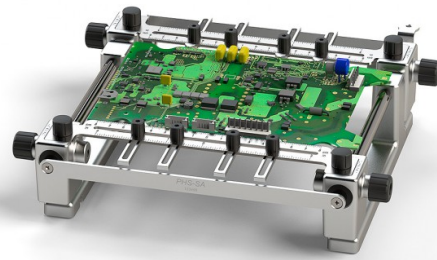

This support is perfectly adapted to any type of PCB by means of its many adjustable parts.

It allows you to properly position PCBs of the same batch so as to always heat the same area. This means save time and optimize workflow.

The PHS-SA incorporates several slots for a total alignment to the [PHSE-K IR Preheater Set](#).

The user can modify the PCB clearance (28, 50 or 70 mm) according to the working needs.

It is also possible to use the 4 black rubber caps for reworking large PCBs.

### Specifications

Net weight	1,99 kg (4.39lb)
Dimensions	267 x 259 x 75 mm (10.51 x 10.20 x 2.95 in)
High position	267 x 259 x 96 mm
ESD safe connector	
Package weight	2,71 kg (5.97lb)
Package dimensions	368 x 368 x 125 mm (14.49 x 14.49 x 4.92 in)

### Connectables

IR Preheater  
PHSE
