

Solder Feed Iron

AP250-A

This tool is ideal for **repetitive tasks** and, with its **improved ergonomic design**, ensures **maximum comfort when working**.

The **AP250** allows the user to manage the administration of tin pushing the trigger with **one hand**.

The AP250-A Solder Feed Iron is fully compatible with any JBC station within the Modular Line and the **CA Solder Feed Station** within the Compact line.

It incorporates an anti-rotation **screw** which adjusts cartridge alignment to suit the component.

The **AP250** work with C250 cartridges and has the **C250403 tip already inserted**. It is also provided with the feeder nozzle and the corresponding reel and an accessories set.
