

Solder Feed Handle

SF280-A

This ergonomic Solder Feed Handle allows you to **feed solder wire automatically from any position**.

It works with the SF Automatic Solder Feeder and is compatible with solder diameters from Ø 0.5 up to 1.5 mm (see guide sets, sold separately).

You can press the button to feed the solder wire or use the P-005 pedal connected to the SF.

You can change the guide tube for each application.

Specifications
