

# Fume Inlet Duct for Compact Stations

## FAE060

### Aspiration system for Compact Stations Stands.

The FAE2-5A is the most efficient solution to avoid solder fumes thanks to its **unique system integrated into the stand**.

The system detects when the tool is returned to the stand and the vent absorbs the fumes automatically.

Connect the FAE060 to the FAE030 or FAE040 on your workbench.
