Adjustable Nano Tweezers

NP115-B

The JBC smallest tweezers for repairing very small-sized components requiring the **greatest precision** such as chips 0402, 0201, 01005, etc.

It works with two cartridges managed individually.

Stable movement A single axis system helps guide your hand and steadies your pulse. Ideal for **very precise** applications.

Vertical cartridge alignment The screw guarantees a vertical alignment of the cartridges. One tip lines up with the other.

Shortest distance Tip-to-Grip Provides greater manual control of the tool, including when using a microscope.

Works with NASE-C and NANE-C Nano stations and C115 cartridges.

Supplied without cartridges. Not compatible with C105 Cartridge Range.

Specifications

Cable length	1.2 m
