

Nano Handle

NT115-A

The JBC smallest Nano Handle NT115 provides the highest precision when soldering SMD components.

Shortest distance Tip-to-Grip Provides greater manual control of the tool, including when using a microscope.

Soft grip The grip offer a soft and comfortable feel and prevent the fingers from sliding down.

Works with NASE-C and NANE-C Nano stations and C115 cartridges.

Easy grip replacement Using the fitters you can easily change the damaged grips (Ref. 0018662).

Supplied without cartridge. Not compatible with C105 range.
