

# Solder Feed Station

## CAE-Q

It is the ideal station for applications requiring a freehand like wire soldering to PCB, connectors or transformers and for intensive soldering of THT components.

The NEW CAE extends the benefits with respect to CA station with new features among which stand out:

- Assistant Work Mode
- Direct connectivity with Smart Fume Extractors

It provides the best soldering quality thanks to JBC Most Efficient Soldering System and additionally Sleep & Hibernation modes help to extend life of tips.

It comes with the AP250 Solder Feed Iron that works with C250 cartridges.
