

## 230V - Heater Hose Set

### JT-T2A

The **JT-T2A** Heater Hose Set works with the **JTSE-2A** Hot Air Station, including the **JTSE-2QA** model.

It allows you to repair all types of SMD electronic components quickly and safely, even the biggest QFPs and PLCCs.

You can use **JT nozzles** to direct the heat to a particular area and protect adjacent components.
