Premium Precision Soldering Station
Ref. DIR-D
Packing List

The following items should be included:

- **DI Control Unit** ................1 unit
  Ref. DI-1D (120V)
  DI-2D (230V)
  DI-9D (100V)

- **Stand** .............................1 unit
  Ref. AD-SD

- **Precision Handle** .............1 unit
  Ref. T210-A

- **ESD Tip Cleaner** ..........1 unit
  Ref. CL8499

- **Sponge** .......................1 unit
  Ref. S0354

- **Brass wool** .................1 unit
  Ref. CL6210

- **Cartridge** ..................1 unit
  Ref. C210001

- **Stand cable** .................1 unit
  Ref. 0011283

- **Power Cord** .................1 unit
  Ref. 0009417 (100V/120V)
  0009401 (230V)

- **Manual** .......................1 unit
  Ref. 0020492

Check our website for the corresponding manuals. Also available in other languages.
Features & Connections

DI Control Unit

- USB Connector
- Desoldering Pump connector
- Equipotential connector
- Main switch
- Power Socket
- Fuse

Stand cable
Ref. 0011283

Stand
Ref. AD-SD

Precision Handle
Ref. T210-A
Compatibility

Select the equipment that best suit your soldering or desoldering needs.

* The MN-A Nitrogen Flow Regulator is required.
Maintenance

Before carrying out maintenance or storage, always allow the equipment to cool and unplug the stand from the station and the tool.

- Clean the station screen with a glass cleaner or a damp cloth.

- Use a damp cloth to clean the casing, the stand and the tool. Alcohol can only be used for cleaning the metal parts.

- Periodically check that the metal parts of the tool and stand are clean so that the station can detect the tool status.

- Maintain tip surface clean and tinned prior to storage in order to avoid tip oxidation. Rusty and dirty surfaces reduce heat transfer to the solder joint.

- Periodically check all cables, tubes and filters to ensure proper solder suction.

- Replace a blown fuse as follows:

1. Pull off the fuse holder and remove the fuse. If necessary use a tool to lever it off.

2. Press the new fuse into the fuse holder and replace it in the station.

- Replace any defective or damaged pieces. Use original JBC spare parts only.

- Repairs should only be performed by a JBC authorized technical service.
It is imperative to follow safety guidelines to prevent electric shock, injury, fire or explosion.

- Do not use the units for any purpose other than soldering or rework. Incorrect use may cause fire.

- The power cord must be plugged into approved bases. Be sure that it is properly grounded before use. When unplugging it, hold the plug, not the wire.

- Do not work on electrically live parts. Antistatic handle of soldering irons is electrically conductive.

- The tool should be placed in the stand when not in use in order to activate the sleep mode. The soldering tip, the metal part of the tool and the stand may still be hot even when the station is turned off. Handle with care, including when adjusting the stand position.

- Do not leave the appliance unattended when it is on.

- It is necessary to turn the station off before changing tips.

- Do not cover the ventilation grills. Heat can cause inflamable products to ignite.

- Avoid the contact of flux with skin or eyes to prevent irritation

- Be careful with the fumes produced when soldering.

- Keep your workplace clean and tidy. Wear appropriate protection glasses and gloves when working to avoid personal harm.

- Utmost care must be taken with liquid tin waste which can cause burns.

- This appliance can be used by children over the age of eight and also persons with reduced physical, sensory or mental capabilities or lack of experience provided that they have been given adequate supervision or instruction concerning use of the appliance and understand the hazards involved. Children must not play with the appliance.

- Maintenance must not be carried out by children unless supervised.

O 表示该有害物质在该部件所有均质材料中的含量均在GB/T 26572 规定的限量要求以下。
X 表示该有害物质至少在该部件的某一均质材料中的含量超出GB/T 26572 规定的限量要求。
### Specifications

**Premium Soldering station**
**DIR-1D / DIR-2D / DIR-9D**

- **Total weight:** 4.6 kg (10.1 lb)
- **DI-1D** 120V 50/60Hz. Input fuse: 2A. Output: 23.5V.
- **DI-2D** 230V 50/60Hz. Input fuse: 1A. Output: 23.5V.
- **DI-9D** 100V 50/60Hz. Input fuse: 2.5A. Output: 23.5V.

- **Weight:** 2.2 kg (4.85 lb)
- **Size:** 90 x 105 x 180 mm (3.5 x 4.1 x 7.1 in)
- **Output Peak Power:** 130W
- **Temperature Range:** 90 to 450 °C (190 to 840 °F)
- **Idle Temp. Stability (still air):** ±1.5 °C / ±3 °F
- **Tip to ground resistance:** <2 ohms
- **Tip to ground voltage:** <2mV RMS
- **Ambient operating temp:** 10 to 40 °C (50 to 104 °F)
- **Connections** USB-B / Peripherals connectors

Complies with CE standards.
ESD protected.

**DIR-2D** 230V FUSE T-1A  
**DIR-9D** 100V FUSE T-2,5A
This product should not be thrown in the garbage. In accordance with the European directive 2002/96/EC, electronic equipment at the end of their life must be collected and returned to an authorized recycling facility.

Warranty
JBC’s 2 year warranty covers this equipment against all manufacturing defects, including the replacement of defective parts and labour. Warranty does not cover product wear or misuse. In order for the warranty to be valid, equipment must be returned, postage paid, to the dealer where it was purchased.

Please register your product warranty within 30 days of purchase in:
