INSTRUCTION MANUAL

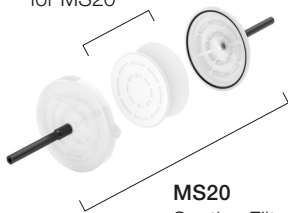

MS30

Cotton Filters for MS20

There are two cotton filters inside MS20.
In case of cotton filter saturation, replace
them with JBC's MS30 cotton filters.

Suction Filter Kit

Replacement

To replace the filters, open the suction filter housing: Hold one side of the housing with one hand and with the fingers of the other hand press the tabs (1) on the other half of the housing.

Take both worn filters out and replace them with two new ones. **Note:** Do not insert more than 2 filters at the same time (2).

Before closing the housing, make sure that the o-ring seal is correctly fitted in place (3).

Finally, press both parts of the housing together.
