INSTRUCTION MANUAL

DPM

Manual Paste Dispenser

This manual corresponds to the following reference:

DPM-B

Packing List

The following items are included:

Manual Solder Paste Dispenser 1 unit

Syringe Cap 4 unit
(1 unit already assembled in DPM)

3 cc Syringe Barrel 2 units

Seal for 3 cc Syringe 2 units

Adapter for 3 cc Syringe 1 unit

5 cc Syringe Barrel 2 units
(1 unit already assembled in DPM)

Seal for 5 cc Syringe 2 units
(1 unit already assembled in DPM)

Manual 1 unit
Ref. 0027208

Features

DPM works with 3 cc and 5 cc syringes.

Syringe Sets*

The following syringe barrel sets are available on www.jbctools.com.

3 cc Syringe Barrel Set

Ref. **SB03CC** includes:

- Barrel 5 units
- Seal 5 units
- Cap 5 units
- Adapter 1 unit

5 cc Syringe Barrel Set

Ref. **SB05CC** includes:

- Barrel 5 units
- Seal 5 units
- Cap 5 units

** Not included, sold separately.*

Operation

DPM works with 3 cc and 5 cc syringes. Ask your solder paste supplier for this format or fill JBC's syringe barrel with solder paste.

1. Seal Placement

Take the barrel filled with solder paste and place the seal into the barrel.

2. Plunger Placement

1. Note that the plunger goes into the syringe barrel with its head facing forward. Otherwise, DPM does not work properly.

2. Insert the plunger into the seal and press the seal against the solder paste to eliminate the air inside the barrel.

3. Tip Placement

Thread the tip onto the syringe barrel.

4. Adapter Use (for 3 cc syringe only)

For 3 cc syringes the adaptor is needed. Assemble the adapter by clipping it onto the barrel.

5. Lever Lifting

Open DPM by lifting the lever and the trigger.

6. Syringe Insertion

1. Insert the prepared syringe, including the plunger, into the DPM.

2. Push the syringe down until it snaps into place and the barrel flange rests in the opening.

7. Lever Positioning

Lower the trigger until it gets locked into one of the grooves of the plunger.

8. Dispensing

Press the lever until solder paste comes out.

Note: When the trigger reaches the end of its stroke, the plunger is reloaded automatically by lifting and pressing down the lever. The trigger automatically jumps into the next plunger groove and the solder paste can be dispensed again.

Dispensing Needles* and Tapered Tips*

JBC offers two different types of dispensing tips, each type with different tip diameters.
Available on www.jbctools.com.

Dispensing Needles with Stainless Steel Tips

STYLE	Ref.	COLOR	SOLDER PASTE (recommended)	GAUGE	ØID (mm/in)	ØOD (mm/in)	LENGTH (mm/in)	TOTAL LENGTH (mm/in)	QTY
